Farm description

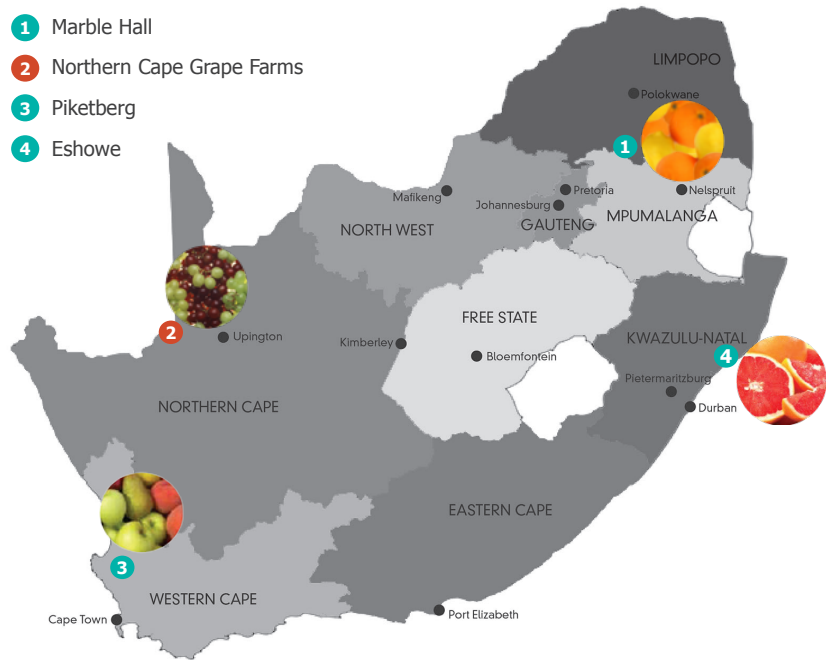

The Northern Cape Grape Farms investment is a consolidation of three farms in the table grape region of the Northern Cape province. This investment provides a foothold in early season table grapes which are marketed internationally. The area along the Orange River in the Northern Cape is one of the few regions in the world that can produce quality table grapes for the peak pre-Christmas demand in Europe. The new hectares planted through the Fund's expansion programme will almost double the number of grape vines on the farm, thereby maximising the productive use of the land and the economic benefits that will flow from this.

Markets

The past season saw an increase in exports over the previous season, with over 94% of the farm's produce going overseas and less than 6% sold locally.
